4 t/m 7 nov	<p>sound healing weekend o.l.v. Orna Ralston uit switserland</p> <p>the sound of one's own voice is the most intimate that a person can express and bring in the outside</p> <p>SUBJECT OF THE SEMINAR</p> <p>This seminar is an intensive weekend for people who want to dive deeper into the field of healing with sound and spirit. Orna is a shaman who works with living knowledge. Therefore her seminars are never the same. She will share ancient ways in which sound and sounding contributes to physical, emotional and mental health. She also works with Psalms from the old Testament that help to clear blockades or to set energies free.</p> <p>ABOUT ORNA RALSTON</p> <p>Orna Ralston is a professional musician who has come to her schamanic roots thru her love of sound and her work with it. She is an intuitive, who is gifted with clair-audience and clair-sensing. Through her work she has unveiled a very spezial form of sounding which has a high potential to change energies, and in turn, lightens up inner and outer spaces. Orna is part of the Teaching board in the long-tearm study programs with reknown Maori and Matakite (seer) Wai Turoa-Morgan. There she is training shamanistic work with voice and sound. Orna's way of teaching is character- ized by humor, intensity and her rich experience as sound wo-man.</p> <p>READINGS</p> <p>Before and after the workshop there it will be possible - also for those who do not participate in the workshop - to book personal readings with Orna. In a reading Orna relates to the acual questions in life and to the inner circumstances. A reading gives the op- portunity to look closely at your stream of life and helping it to flow better - or come again into a flow. To get there Orna is using a schamanistic form of sounding and voicing</p> <p>Vergoeding 395,- incl verblijf en goddelijke maaltijden</p>
