18 till 21 june	<p><b>When your soul is longing to hear it's voice!</b>  Marinet Koeman and Mieke van der Meer</p> <p>The healing voice and sweat lodge ceremony is a unique 4 days workshop. Unique cause it has a new way of working with ancient rituals. The healing voice is new and old in the same way, the Egyptians studied the voice in their temples, Indians use their voice for praying and healing. The voice is a strong medium that takes us further than thinking, and touches us in our essence. It can heal blockedges on a essencial level</p> <p>In these modern times we loose our contact with our soul, some or many times we are too much in our head, mental.  We communicate from the mind while our voice is coming from our belly, and heart.</p> <p>Through this we often are not fully in contact with the inner flow that comes from our source. The voice is coming from the source, from our deepest being, potential, instinct and knowledge. The voice helps us to flow again, and resonate in connection with all there is. To bring you back to your own power, truth, wakes up the inner potential so you know what to do with your life. The healing voice will flow through us, touches what is needed, frees us from old pain, to change our live.</p> <p>The exercises are easy, everybody can participate. We will work with meditation, shamanic healing, voice expression. It will take you beyond what you thought would be possible to express and heal with the voice. A workshop of this time full of</p>

	<p>inspiration for those who seek the deeper layers in life.</p> <p>Marinet de Wildt-Koeman: studied at the conservatorium in Alkmaar, at Carolina Bont's centre of aura reading, voice work with Annemarie Blink en Jonathan Hart, soul healing with healing voice at Loucas van den Berg and now is the first dutch Soul voice practitioner. Soul voice is a new revolutionair methodic conducted by Karina Schelde from New Sea land.</p> <p>Start; 18 juni - 9.30 uur. costs ; 395,- including stay and divine meals</p>
2 till 4 july	<p><b>Workshop 'New Consciousness and Energy Healing'</b> conducted byMaureen Butter</p> <p>2012 is the focus of many prophecies announcing the end of civilisation as we know it. Economic and ecological crisis accompany the violent changes in our days. At the same time we experience a leap in consciousness, signs of which are everywhere as soon as you start looking for them. Many angels and spiritual helpers from other realms assist us in our transition. They all amount to love and healing, which is what we and our planet need most. Amazingly strong forms of energy healing are now available for our use and empowerment. In this workshop we will have a taste of some new healing energies and we explore our own connection to the new consciousness. You will all receive an individual healing session and we will practice in the group.</p> <p>Start: Friday 2 july 18.00, with a personal healing for every participant</p> <p>Saturday; sweat lodge ceremony conducted by mieke van der Meer End; Sunday 4 july 16.00.</p> <p>Maureen Butter's gift is Knowledge, including Memory from Earth's long history and Wisdom.
