

WHARE WANANGA INTRODUCTION WEEK

Holland

15. - 21. May 2009

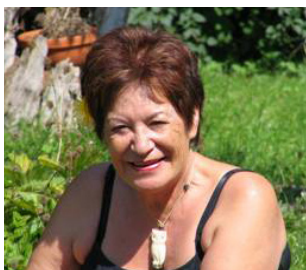

MIT WAI TUROA - MORGAN

THE WORKSHOP

This introduction workshop is about entering the long term study programm. During this intense week you will have the opportunity to experience how Wai works. After this week you should decide whether you want to stay in the programm.

During our journey into the spiritual world we will open up a sacred space. Therefore in this time we are sacred, too. When we are sacred we can work with the higher spiritual energies. In this intensive week we are part of a circle that keeps challenging us, that supports us and gives us space to grow.

Wai is a specially gifted seer and an extraordinary healer and teacher. She is a very warm and charismatic woman and has a natural gift to bring across the understanding and wisdom that everything and everybody on this earth is interconnected.
